

Fitness Center Paging

NetPage Software

Increase customer service and staff efficiency quickly with LRS on-site paging systems

LRS guest and staff pagers have been helping fitness and health clubs improve member service and boost staff efficiency since 1993. With health club membership on the rise, it is vital to give your members the attention they demand. It's easy with LRS silent pagers.

NetPage™ PC Staff Paging

Locate staff members quickly anywhere in the building. Perfect for today's larger, fast-paced fitness facilities. This PC-based silent paging system sends detailed text messages instantly from stand-alone or network computers to a manager, trainer or anyone else wearing an LRS alphanumeric pager. No one ever has to miss an important message again.

- Increase productivity and response time
- Improve member service levels
- Page individuals or entire groups
- Send detailed or pre-canned text messages
- Messages delivered instantly to LRS alphanumeric pagers
- Eliminate monthly fees if using cell phones
- Eliminate overhead paging for a quieter, more focused environment

Nursery & Daycare Pagers
Nine models to choose from

Nursery & Daycare Paging

Give Parents Peace-of-Mind. Our affordable, silent pagers give your on-site nursery or daycare area the ability to contact parents instantly if their child needs them.

- Contacts parents instantly and silently
- Provides constant vibration or flashing so parents won't miss a page
- Helps ensure child safety since only parents with the correct pager can pick up their child
- Nine flashing and vibrating pager models available

Butler II

Member Assistance Paging

Nothing irritates a member more than needing assistance and no one is around. Make sure that doesn't happen with the wireless Butler II™ push-for-service system. Your customer just presses a button and Butler II sends a silent page to a staff member. Ideal for weight rooms, locker rooms, massage rooms, etc.

- Improves staff response time
- No hardwiring required - operates on 3 AAA batteries
- Attaches to almost any surface
- Available in one and five-button models
- Buttons can be programmed to page staff or managers with an LRS Alphanumeric Pager

Pushbutton Staff-To-Staff Paging

Butler II can also be used for staff-to-staff paging. Mount it at the front desk so the receptionist can call for the manager, trainers, massage therapists or other staff members when an appointment arrives.

Alphanumeric Pager
